

I want you to know how important it is to me to keep K-Love (90.5) on the air in Des Moines. I first started listening to the radio station on the web, and was delighted when they were able to come to Des moines on the radio station. I listen in the car for approximately 60-90 minutes per day. I love the songs, I love the encouragement. I financially support this station -- because I appreciate not having advertisements poured into my head... and yet it's free for everyone - even those who can't afford to support it.

I don't think that the Des MOines market could fully fund this type of programming if they weren't partners of a national network such as K-Love.

I just really appreciate the opportunity for putting clean and interesting sounds in my ears. Please allow K-Love to continue to broadcast in my area on the radio.
